# KŌKAKO TERM 2 2018

## A LITTLE BIT ABOUT OUR BUSY CLASSROOM

We have been reading an incredible book called 'Northwood' by Brian Falkner. The main character, Cecelia is whisked away in a balloon into a wood filled with lions and weird goings on in an ancient castle!

Array City has been a highlight of the Math program so far. Building cities with window arrays and lots of colour!

Matariki is close in our minds as the time approaches. We have been learning about the structure of a report and sharing our understandings with each other.

Ranginui and Papatuanuku have been a large focus within our classroom. Also featured in our inquiry is Tane Mahuta and Tane-nui-a-rangi.
