We are becoming moneywise!

Last week an ASB staff member visited our school to teach us about money. Te Ra children learned about the value of different denominations of NZ money and how transactions work when we use a money card to pay for items. Our Te Marama class learned about the value of saving money. Everyone thought it was very valuable information, and it was a lot of fun. We know a lot more about how to save money and how to use it wisely.

A trip to Parliament

As part of our learning about New Zealand we are visiting Parliament next week. We are planning to catch the train into town. We will have a lesson in the Beehive and we will also visit the National Library to see the Treaty of Waitangi.

Maths

We have been working hard in maths recently. The juniors have been enjoying using our addition, subtraction, multiplication and division boards. The seniors have been learning about common factors and multiples.
